ARMY OF SHADOWS, Jean-Pierre Melville's poignant examination of what it means to love your country, reveals a point in history where true patriotism was a gritty, lonely, perilous and often futile duty embraced by ordinary people.

Melville's new-wave directorial style delivers a tense, understated epic imbued with the hard, cold realities faced by the Resistance in Occupied France – providing moral and intellectual gravitas without gratuitous fluff or use of war movie clichés.

An interview with the director, movie trailer, still photos, essay by Roger Ebert and links to critical reviews are available at the CWC website.
